

# Digital Analytics Meetup

# Who we are

**Socrates Tsouplakis**  
Senior Voice Support Engineer  
*Network Support Section Northern  
Greece*

**Chrysostomos Charisis**  
Senior Network Application Developer  
*Service Quality, CEM Fixed & Mobile*

**Konstantinos Boletis**  
Senior Group Leader  
*Access Network Telecommunication  
Systems Support*

# Ένας κόσμος, καλύτερος για όλους

**COSMOTE**

Ένας κόσμος, καλύτερος για όλους.

Φέρνουμε τις **δυνατότητες της τεχνολογίας σε όλους**,  
ώστε να μπορεί ο καθένας μας να αξιοποιεί τις **ευκαιρίες του σήμερα**  
και παράλληλα να χτίζει **ένα καλύτερο αύριο**.

# ΟΜΙΛΟΣ ΟΤΕ

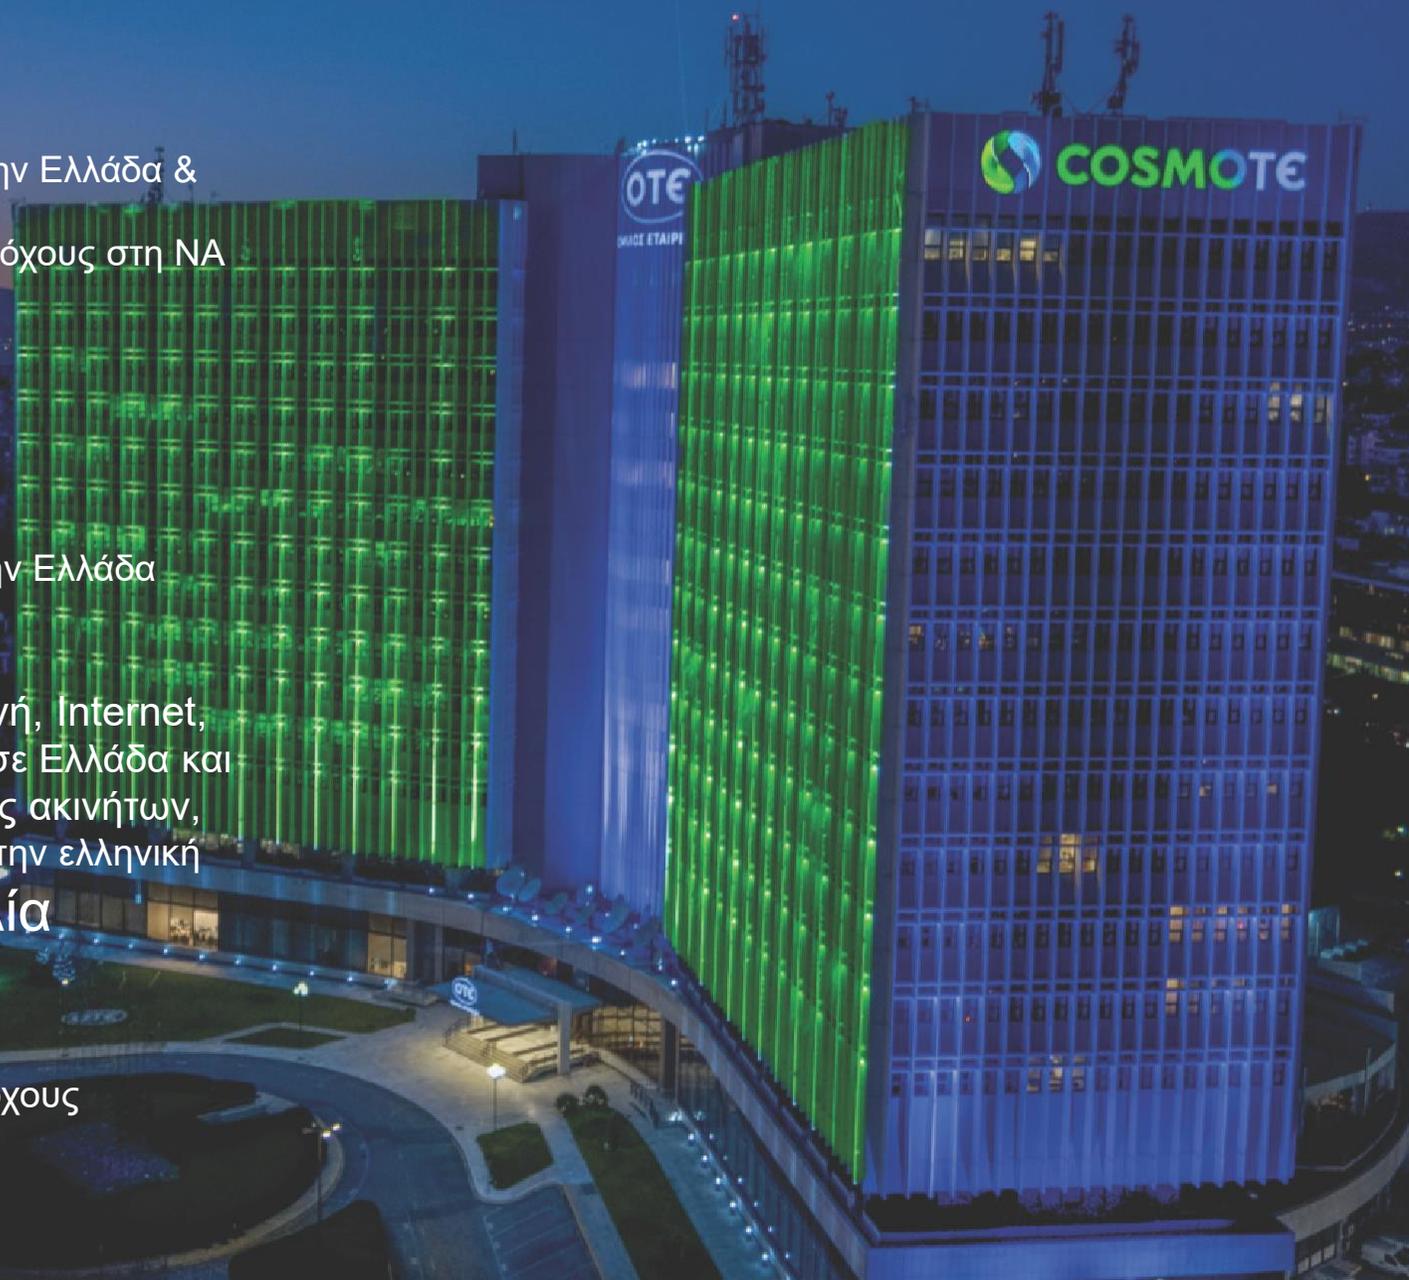

Ο μεγαλύτερος τηλεπικοινωνιακός πάροχος στην Ελλάδα & από τους κορυφαίους τηλεπικοινωνιακούς παρόχους στη ΝΑ Ευρώπη

Μέλος του Ομίλου της Deutsche Telekom

Απασχολεί πάνω από 13.500 εργαζόμενους στην Ελλάδα

Δραστηριότητες: Σταθερή τηλεφωνία, (φωνή, Internet, δεδομένα), τηλεόραση & κινητή τηλεφωνία σε Ελλάδα και Ρουμανία. Στην Ελλάδα επιπλέον, υπηρεσίες ακινήτων, εκπαίδευσης και τηλεπικοινωνιακές λύσεις για την ελληνική και διεθνή βιομηχανική ναυτιλία

Απευθύνεται σε ιδιώτες, επιχειρήσεις και παρόχους

# Cellular Network Evolution

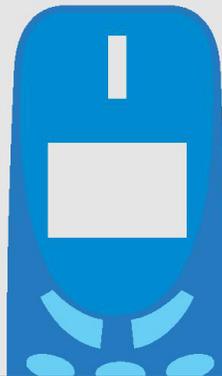

**1G**

0 data transfer

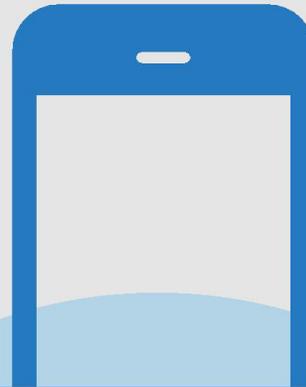

**2G**

up to 385 kbps

**3G**

up to 42 Mbps

**4G**

up to 1 Gbps

**5G**

up to 100 Gbps

# The Landscape of 5G

5G will differentiate itself by delivering various improvements:

**Decrease in latency:**

Delivering latency as low as 1 ms.

**Connection density:**

Enabling more efficient signaling for IoT connectivity.

**Experienced throughput:**

Bringing more uniform, multi-Gbps peak rates.

**Spectrum efficiency:**

Achieving even more bits per Hz with advanced antenna techniques.

**Traffic capacity:**

Driving network hyper-densification with more small cells everywhere.

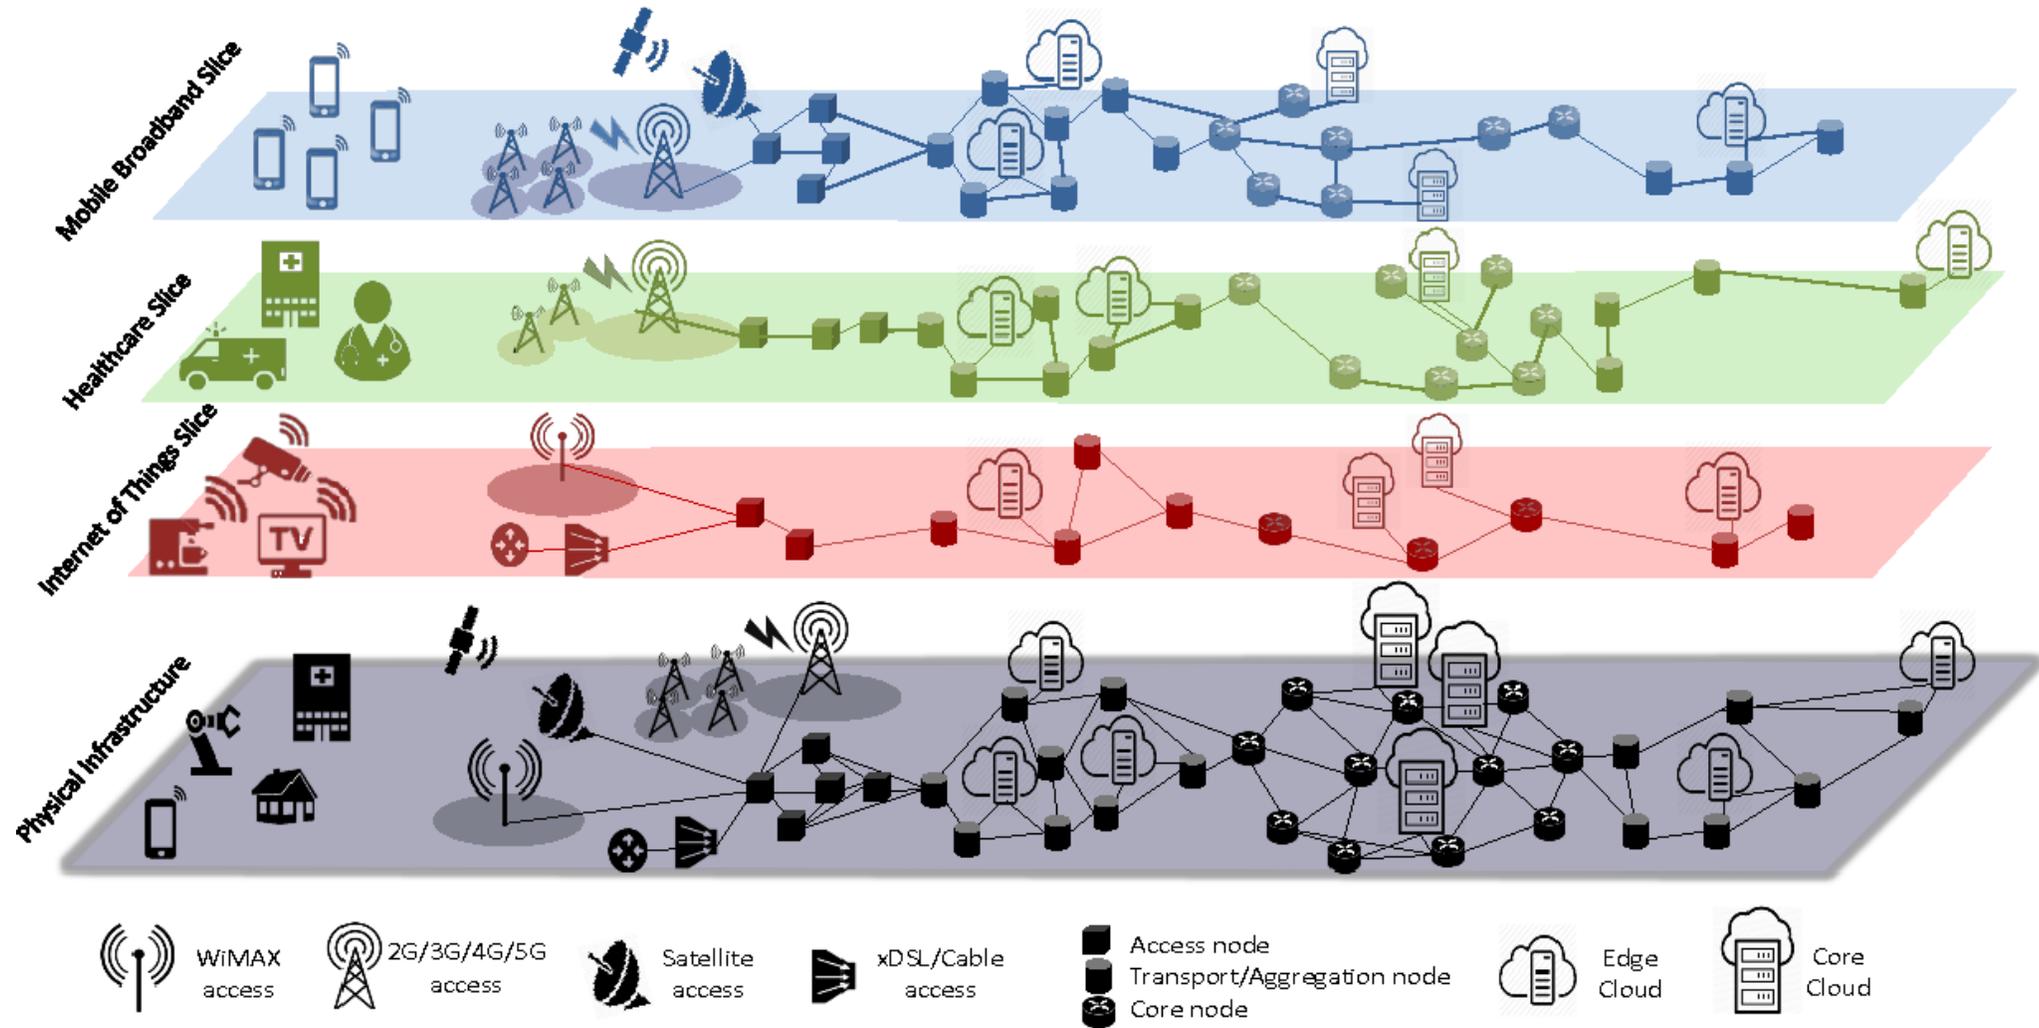

**Network efficiency:**

Optimizing network energy consumption with more efficient processing.

# 5G Slicing

# 5G Use Case

# OTE Group Research & Innovation (R&I)

We are participating in 19 out of 54 EU funded 5G-PPP projects aiming at the design and implementation of advanced 5G infrastructures and the demonstration of innovative services/applications. The active participation in EU 5G projects empowers OTE Group to play a significant role in the 5G-PPP initiative helping reinforce European industry to successfully compete on global markets and open up new innovation opportunities.

The Destination  
**Supreme User Experience**

The Path  
**Digitalization**

Till yesterday we were  
acting like hard  
working Painters!

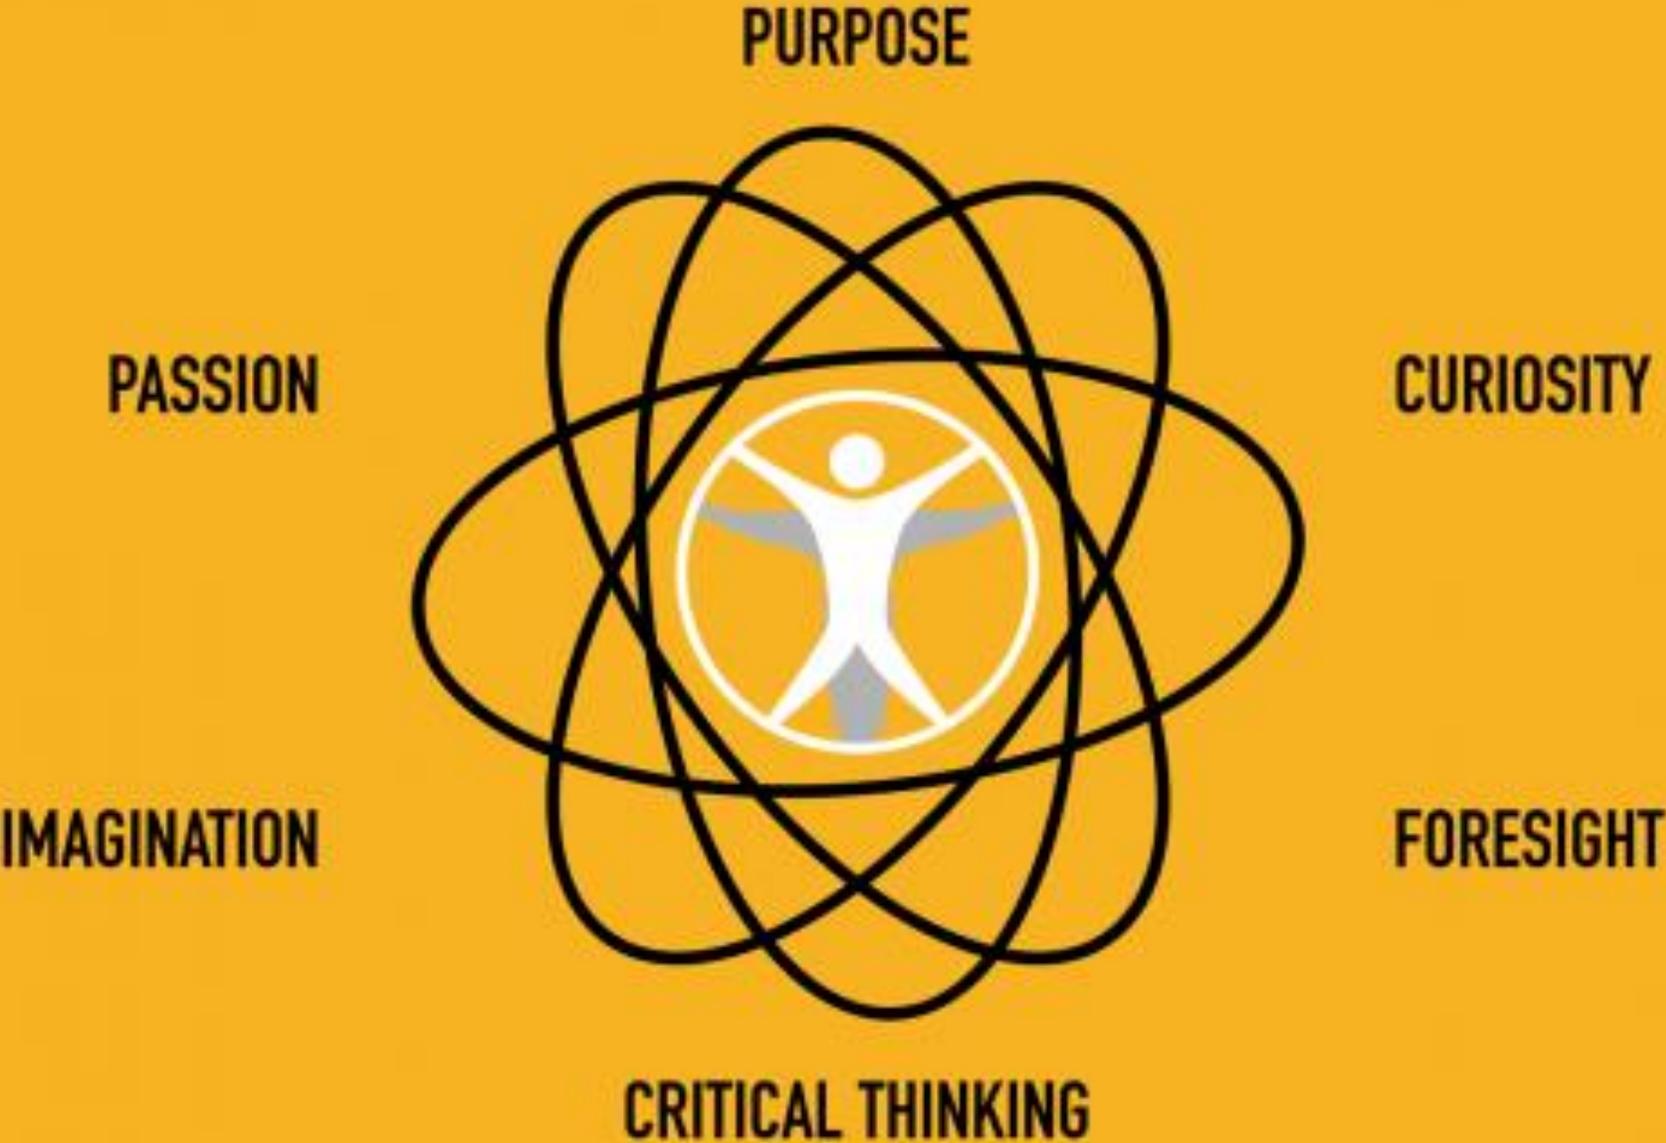

Customer  
happiness  
is not an  
algorithm\*

# Human Assets

«Θέλουμε να αξιοποιήσουμε στο μέγιστο βαθμό τις δυνατότητες της τεχνολογίας και ταυτόχρονα να αναβαθμίσουμε τους ανθρώπους μας στο να αξιοποιούν στο μέγιστο βαθμό τις δυνατότητες του μυαλού τους, στις περιοχές που οι υπολογιστές αδυνατούν να τους συναγωνιστούν»

**Nikolaos Skiathitis**

Executive Director

*Network Intelligent Operations & CEM Fixed & Mobile*

**COSMOTE**

# The Challenge!

Millions of Subscribers to ensure supreme User Experience

In House Implementations:

- CSI Cell (Customer Satisfaction Indicator)
- CuBE (Customer Broadband Experience)

Thousands of Network Alarms to handle, investigate & Prioritize.

In House Implementations:

- Virtual operator
- MUsE
- Diligent

Thousands of Network Performance KPIs to evaluate

In House Implementations:

- Visit
- Network Performance Analyzer
- QPM Live

Thousands of Network Equipment to ensure their stable operation

In House Implementations:

- **Predictive Maintenance**
- **Custom Voice Assistance (Ellie)**
- WFM

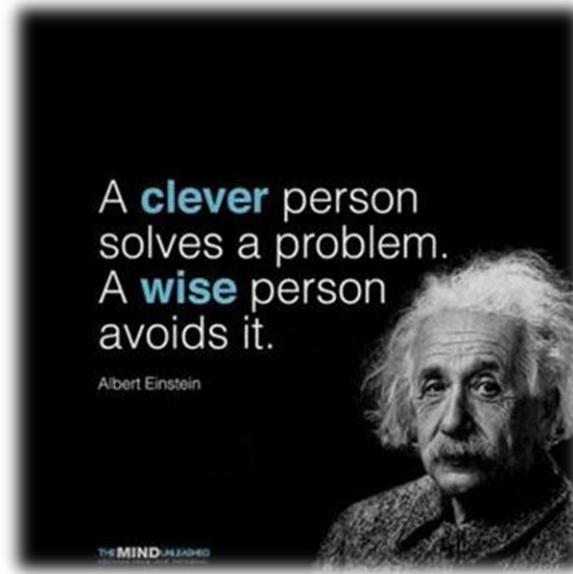

# Predictive Maintenance

Temperature Issues Prediction Module

# The Concept

Is there any way to **predict** potential hardware issues related to node's environmental conditions and fix them before any of our **customer's network experience** is affected?

# Maintenance Pillars

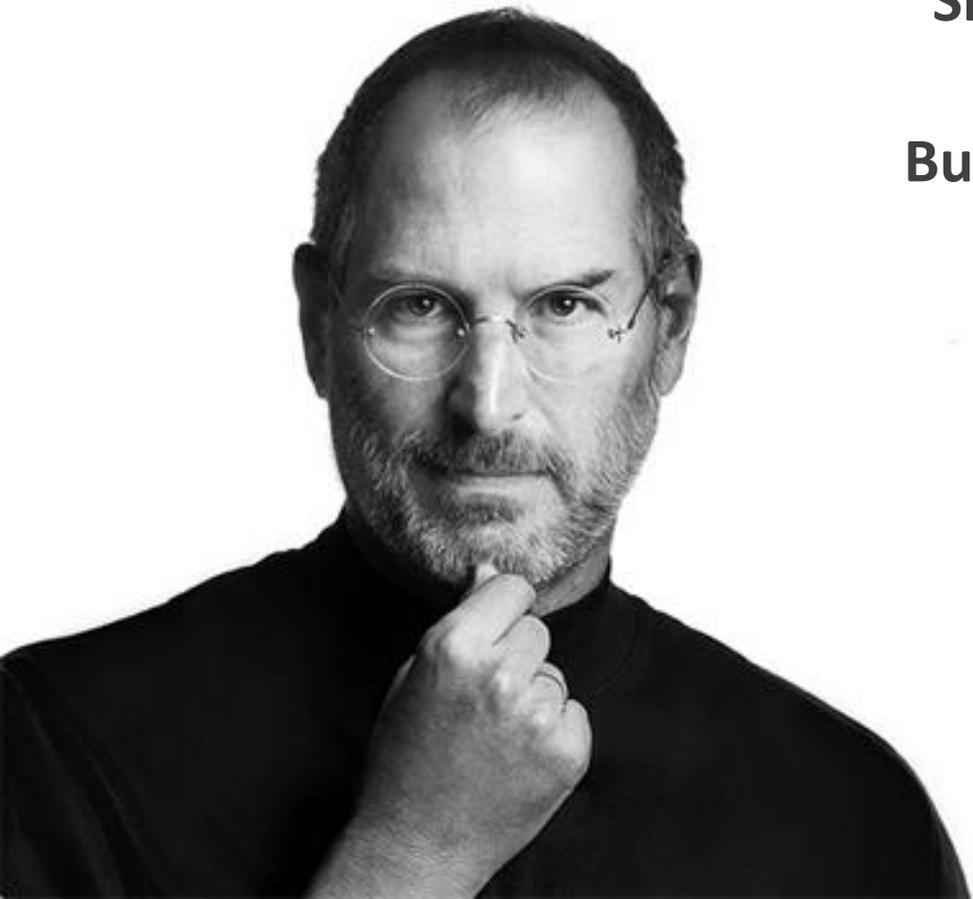

**Reactive  
Maintenance**

**Proactive  
Maintenance**

**Preventive  
Maintenance**

**Predictive  
Maintenance**

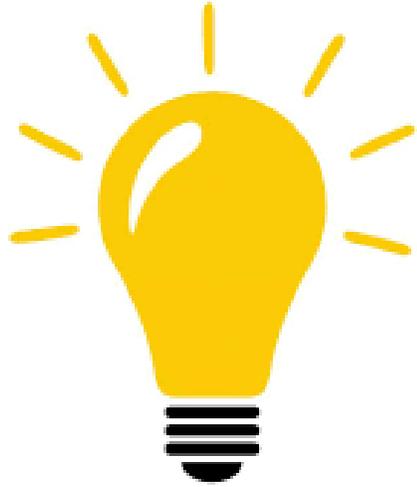

**“Simple can be harder than complex: You have to work hard to get your thinking clean to make it simple. But it's worth it in the end because once you get there, you can move mountains”**

**Steve Jobs**

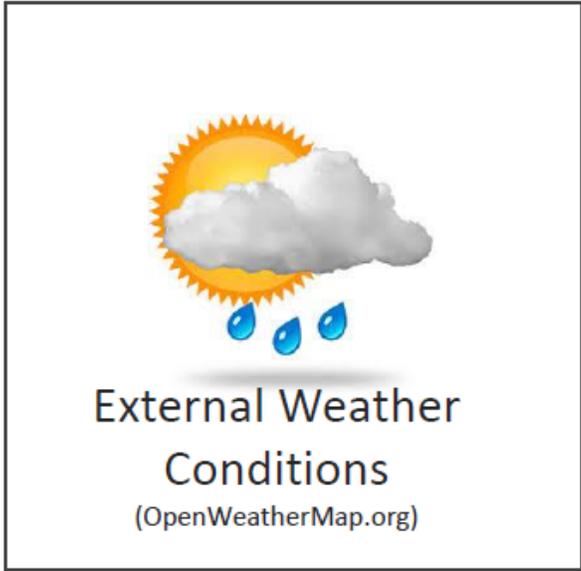

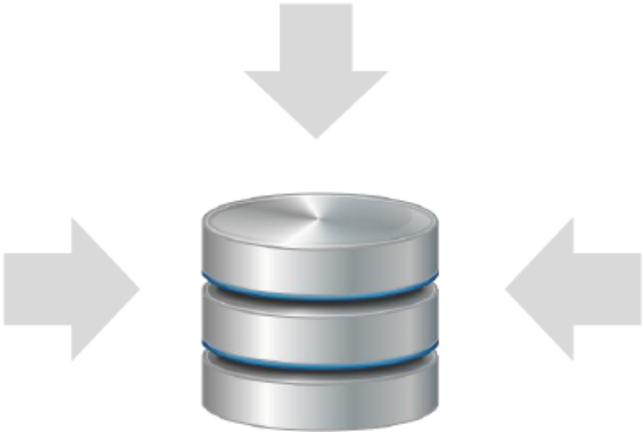

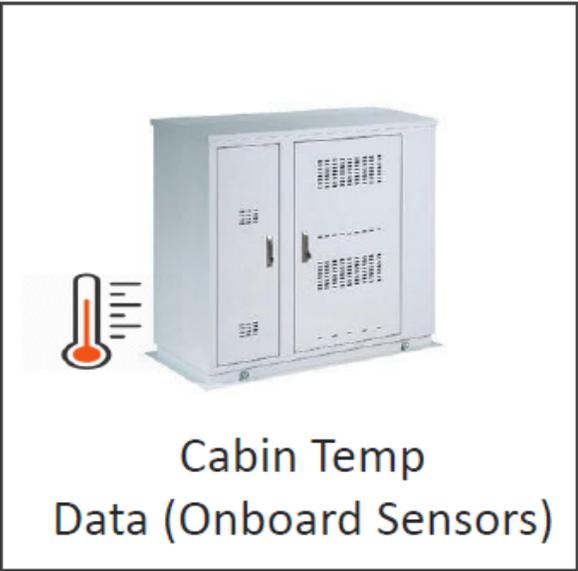

How ?

Our data have **Voice!**

# Modern Popular Voice Assistants

## Smartphone-Based Voice Assistants

### Apple Siri

*First mainstream voice assistant*

**Default wake word**  
Hey Siri

**Common tasks**  
Send messages, set reminders, create calendar entries, dial calls, answer questions, set timers, show weather forecast, take photos, set alarms, play music, send texts, open apps

### Google Assistant

*Debuted May 2012 as Google Now in Android 4.1 aka Jelly Bean, Google Assistant debuted in 2016*

**Default wake word**  
OK Google

**Common tasks**  
Send messages, set reminders, create calendar entries, dial calls, answer questions, set timers, show weather forecast, open apps, set alarms, play music, send texts

## Smart Speaker-Based Voice Assistants

### Amazon Alexa

*Debuted in November 2014 in Amazon Echo and Amazon Echo Dot smart speakers*

**Default wake word**  
Alexa

**Common tasks**  
Makes calls, music playback, sets alarms, answers questions, provides real-time information, controls smart devices using home automation systems, uses Skills apps to do more advanced features

### Google Home

*Debuted in November 2016*

**Default wake word**  
Hey Google

**Common tasks**  
Answers questions, plays music, controls smart devices using home automation, makes calls, sets reminders, reads news, works with Chromecast to stream entertainment

### Apple HomePod

*Debuted February 2018*

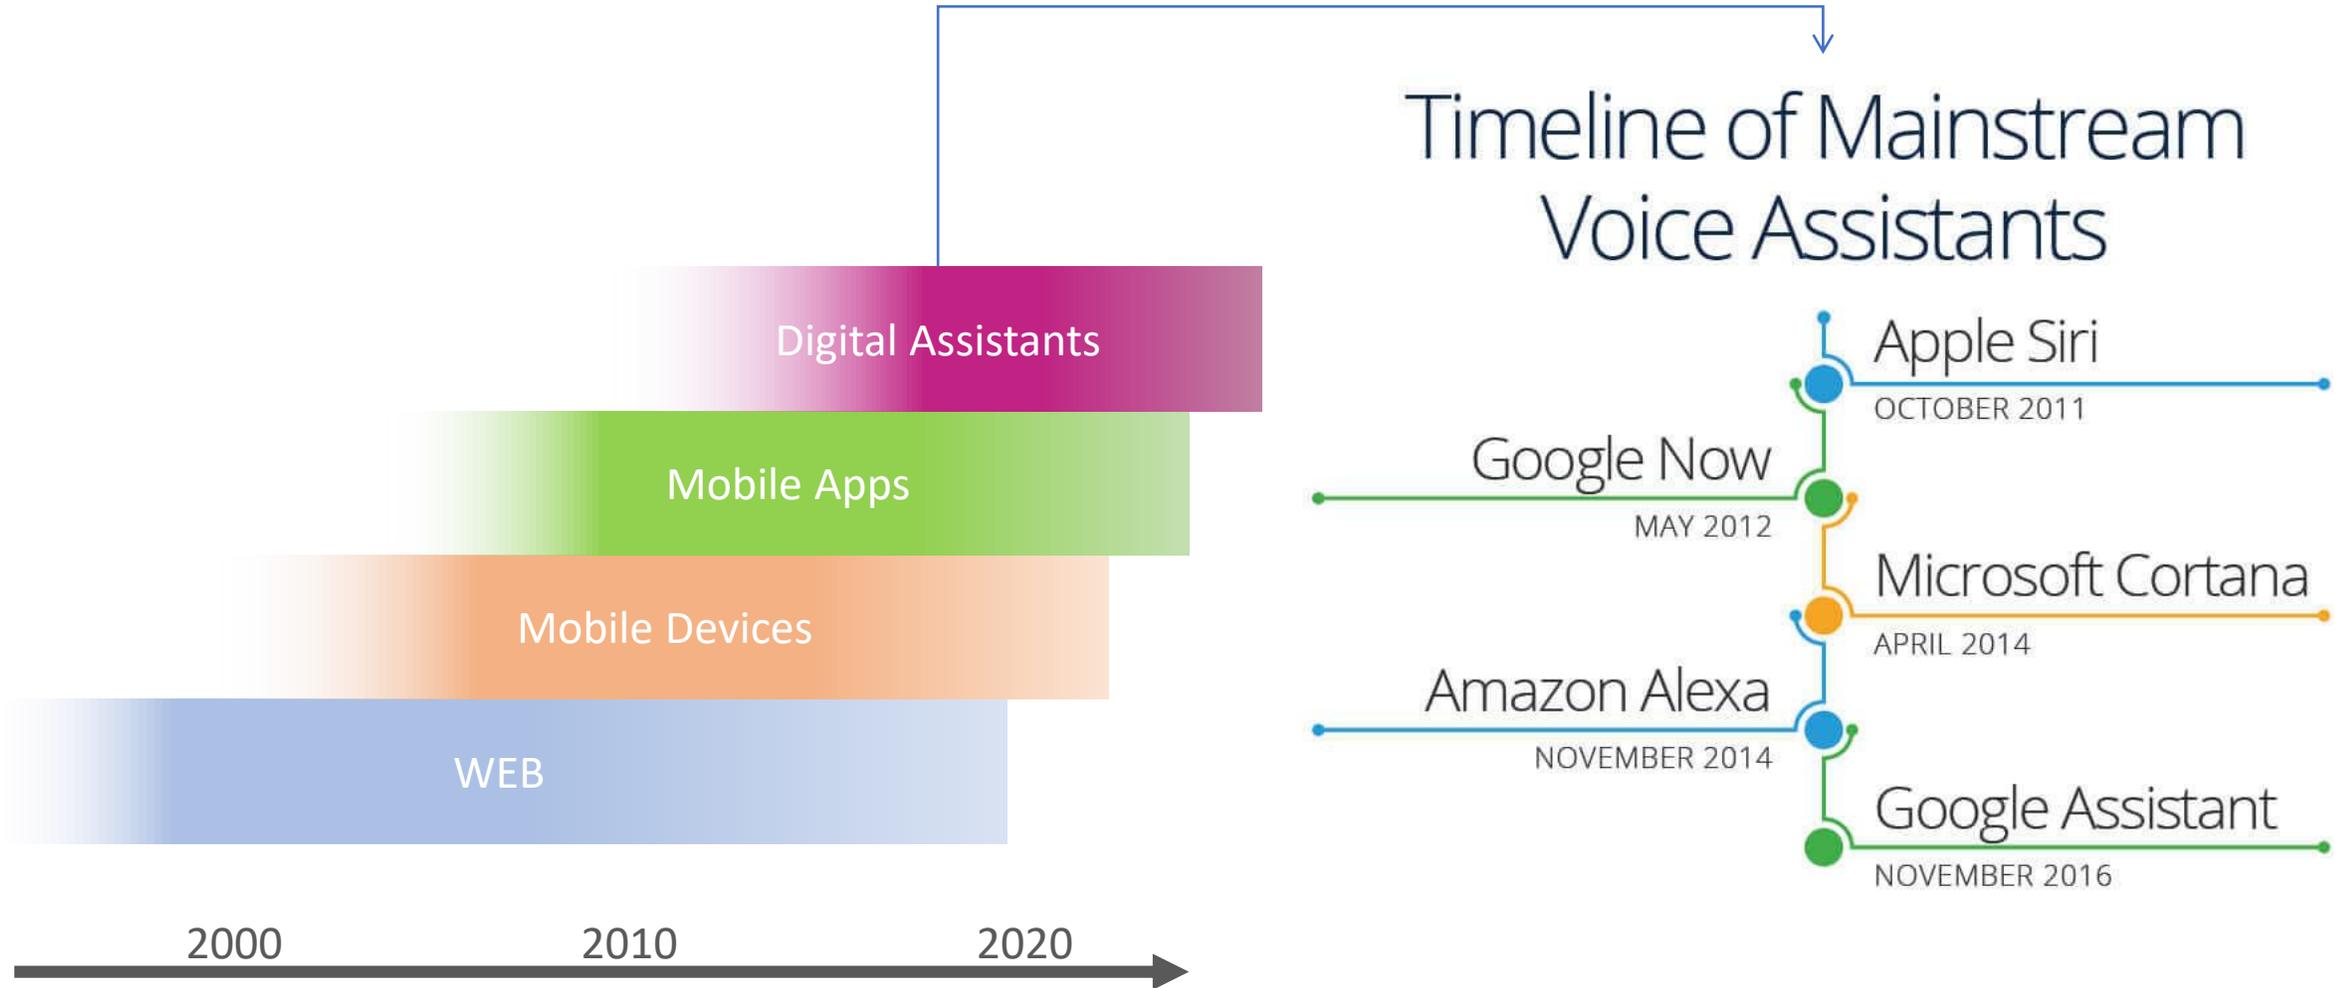

**Default wake word**  
Hey Siri

**Common tasks**  
Plays music, controls devices using smart home automation, sets timers, reads news and information, creates lists, sends messages, makes calls on an iPhone.

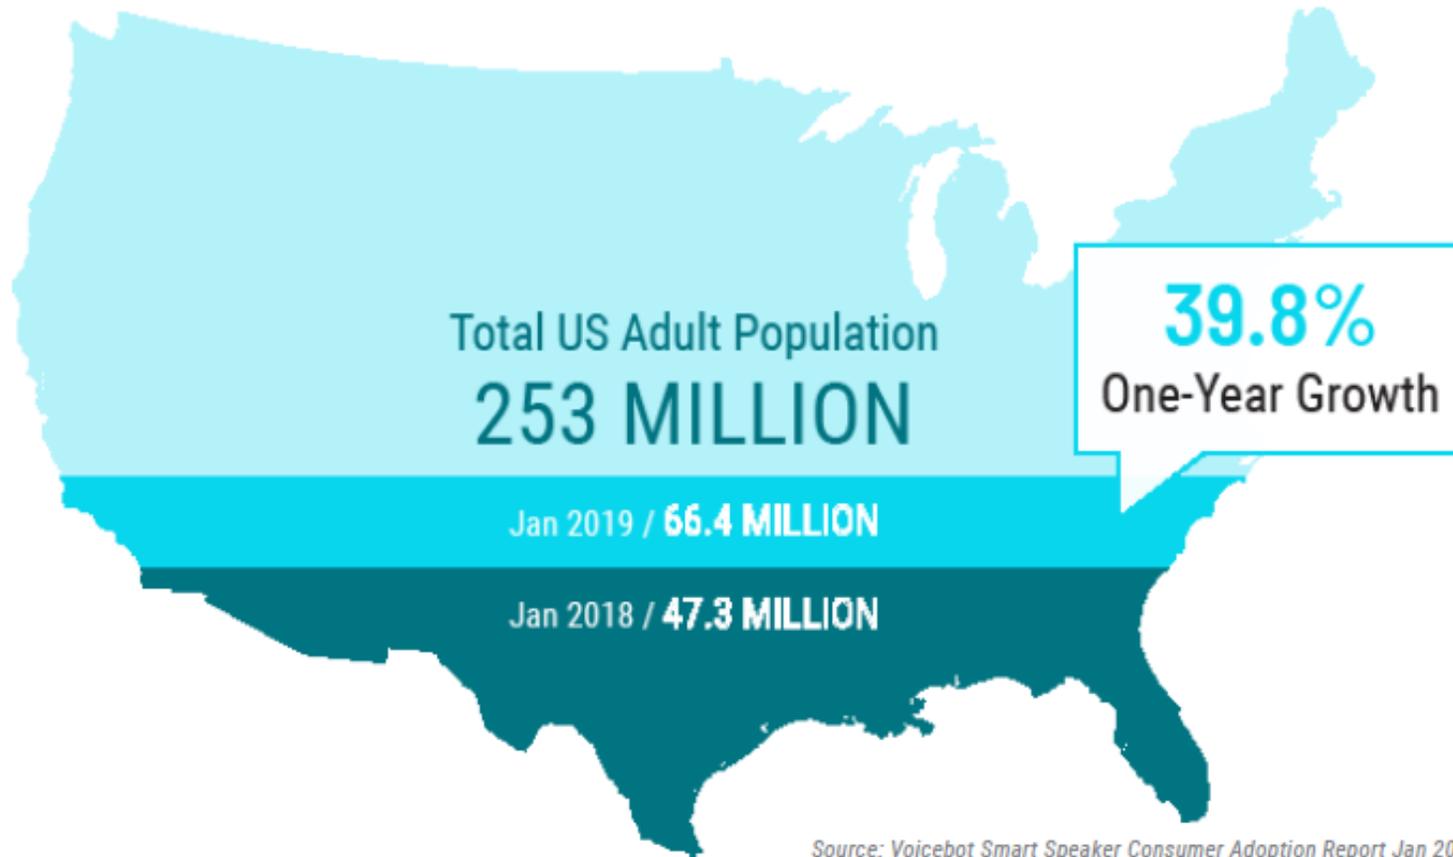

# The History

## Timeline of Mainstream Voice Assistants

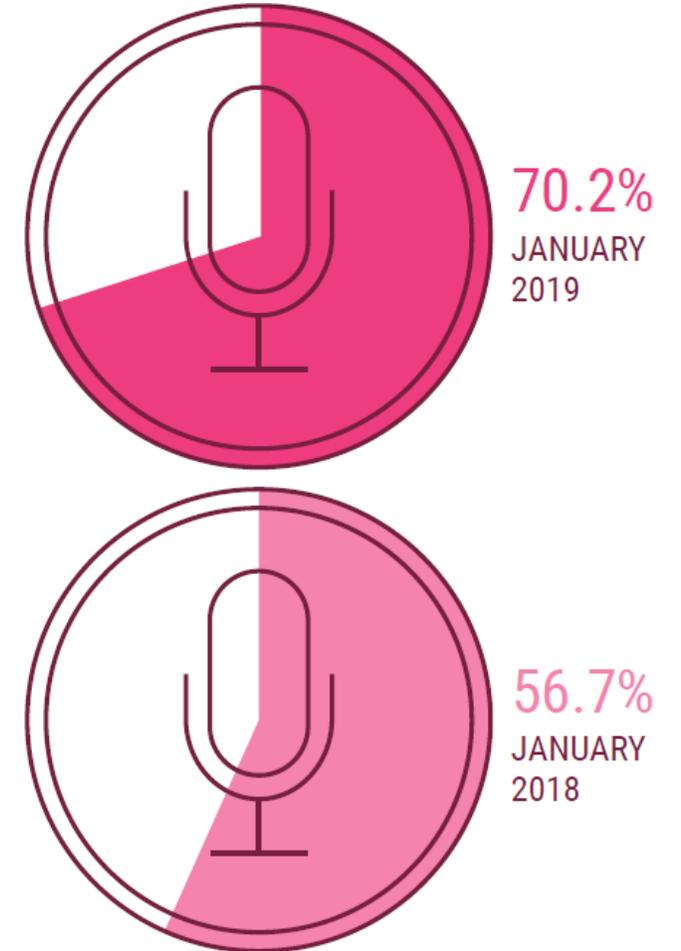

# Stats

## U.S. Adult Smart Speaker Installed Base January 2019

## Have Used a Voice Assistant on a Smartphone

# Pros & Cons

+

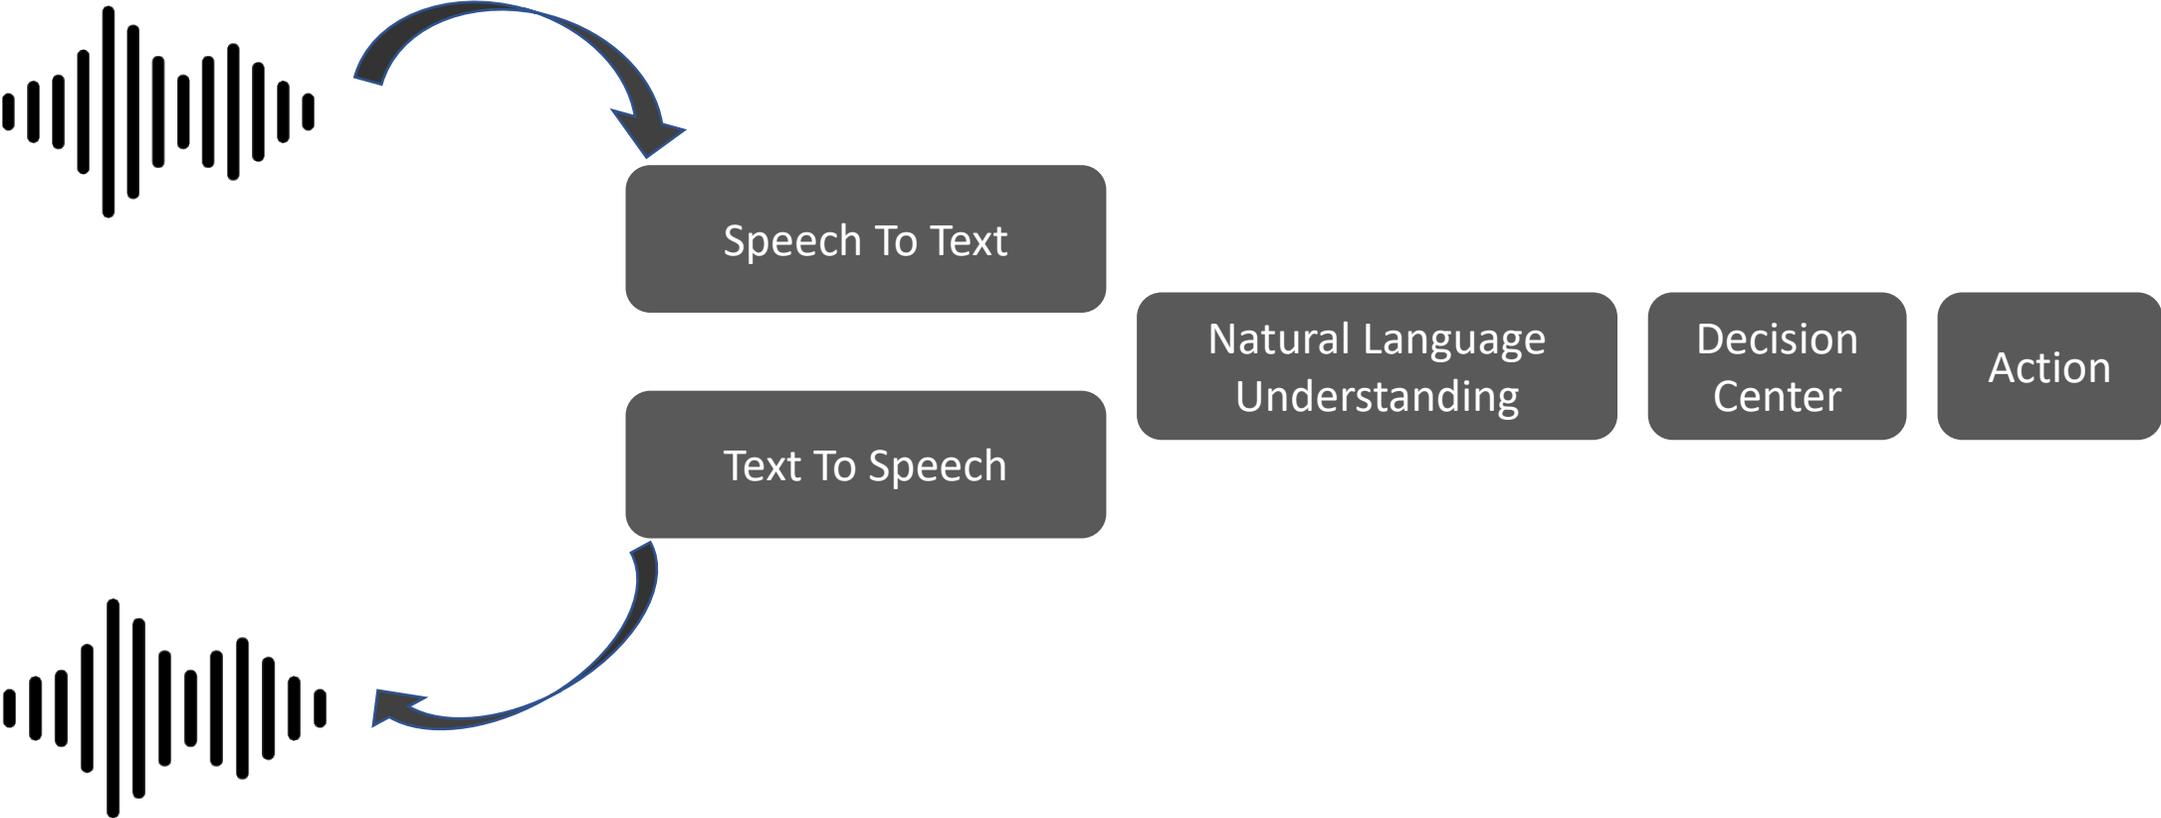

Always On  
Hands Free  
Quick Content Access

-

Not quite so smart yet...  
(or are they?)

# Core Architecture

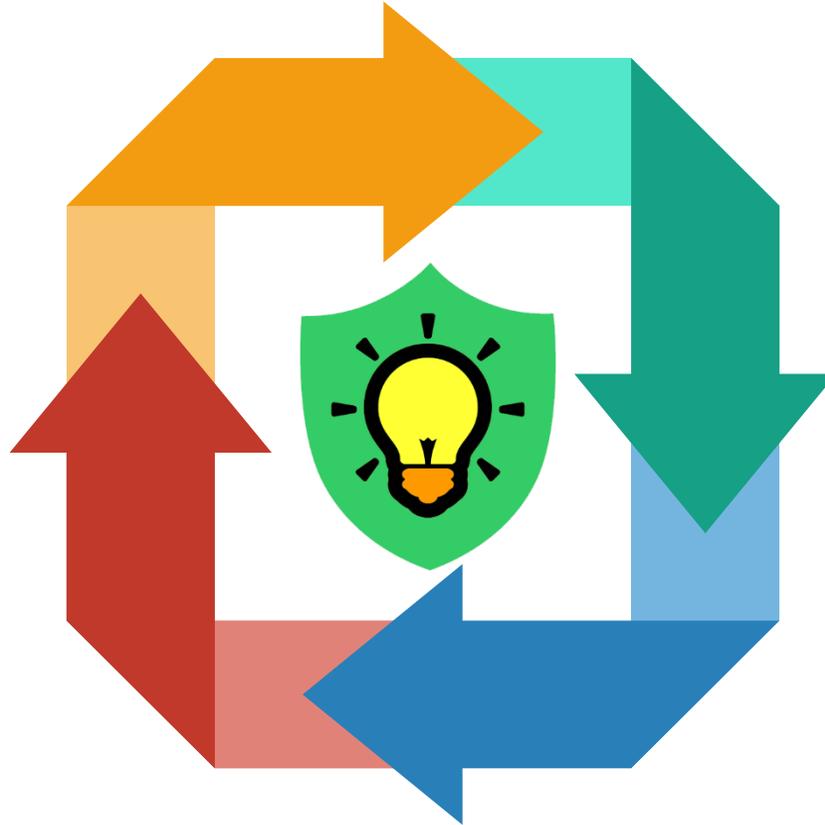

# Gains

## Efficiency

- Increase Production
  - Reduce Queuing

## Security

- Mobile User Authentication
  - Privacy
- Big Data Security

## Simplicity

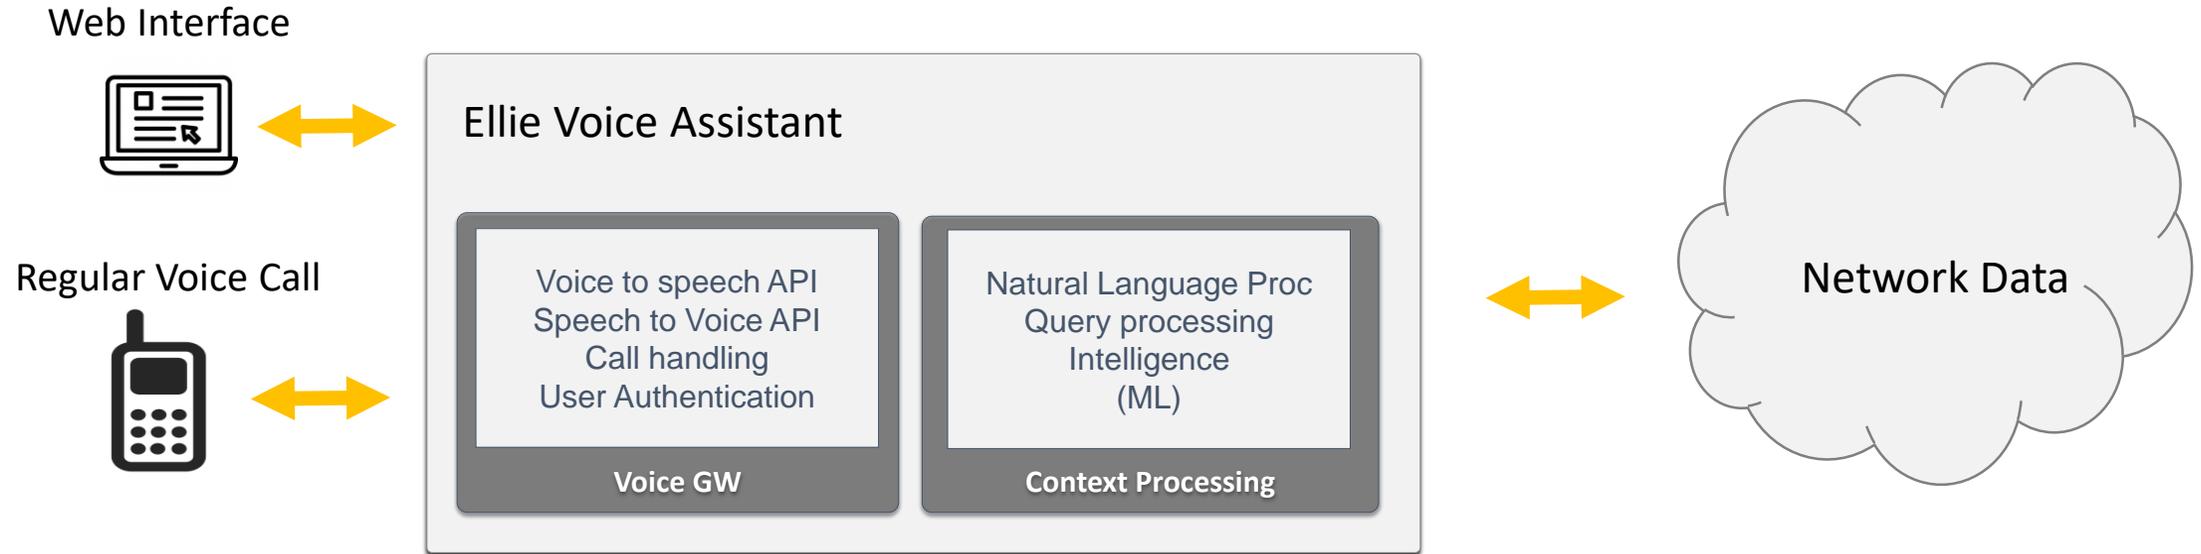

- Easy to use
- Supports Mobility of the user
- 7/24

## Time Efficiency

Fast prototype delivery  
with use case

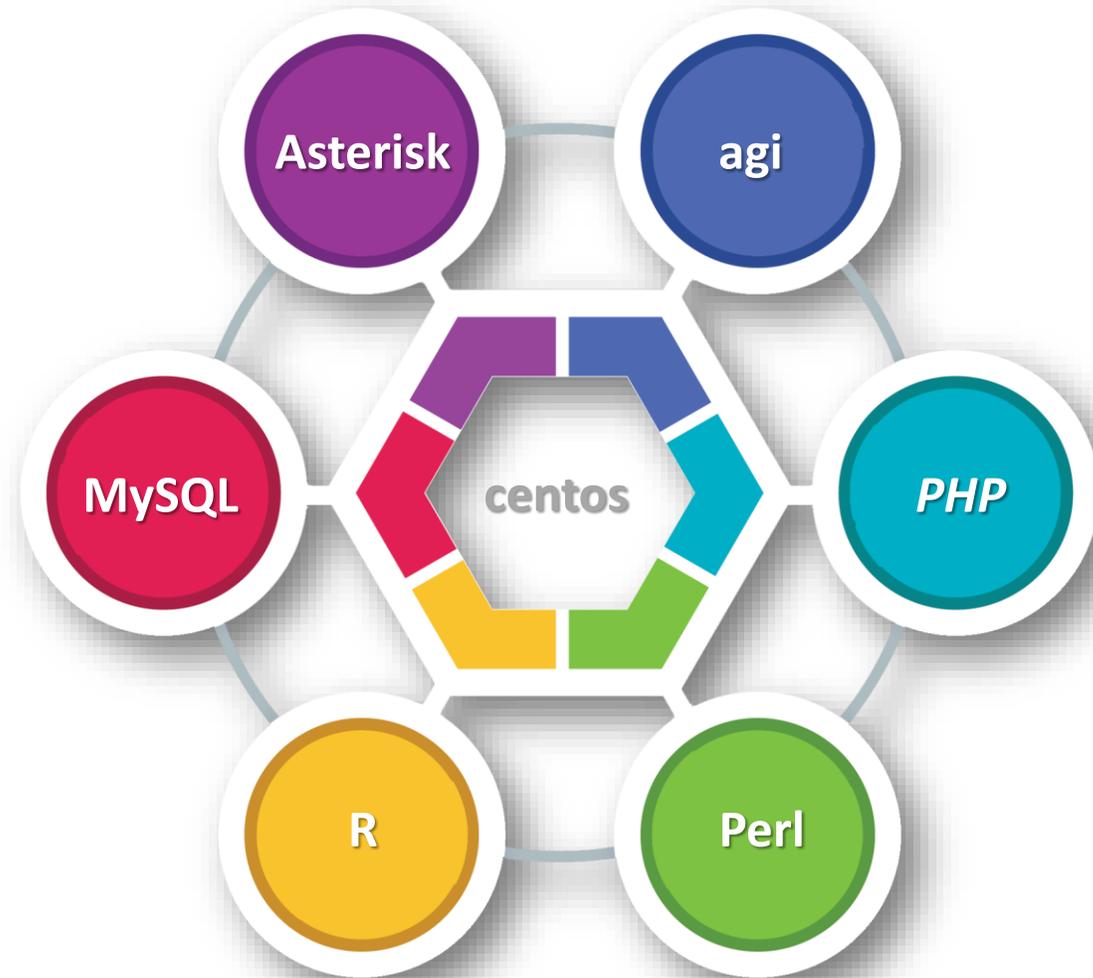

# The System End to End

## Use Case: Rigger

# Tools

Now its time to meet..

Ellie

Transformation can be painful & difficult but is the only means to evolve and grow into a beautiful butterfly!
